

Stationary Coconut Tree Climb

High level monkey business

Outstanding quality theming

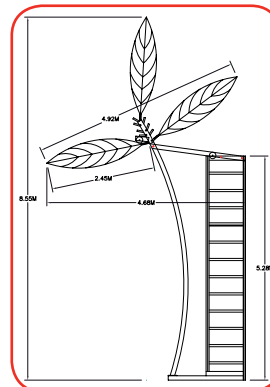

A new wave in climbing attractions

The Coconut Tree Climb brings a new fun and challenging dimension to the climbing attraction market. Utilising the same Auto Belay technology that is used in the Innovative Leisure Climbing Towers the Coconut Tree Climb offers a different style of climbing experience. The high quality finish and striking theme means it is an attraction that will capture the eye and imagination of customers. Ideally suited for both indoor and outdoor facilities.

- 6.7m tall plus leaf fronds. Custom heights available on request
- Tree moulds available in 2ft (60cm) sections
