

# Mobile Coconut Tree Climb

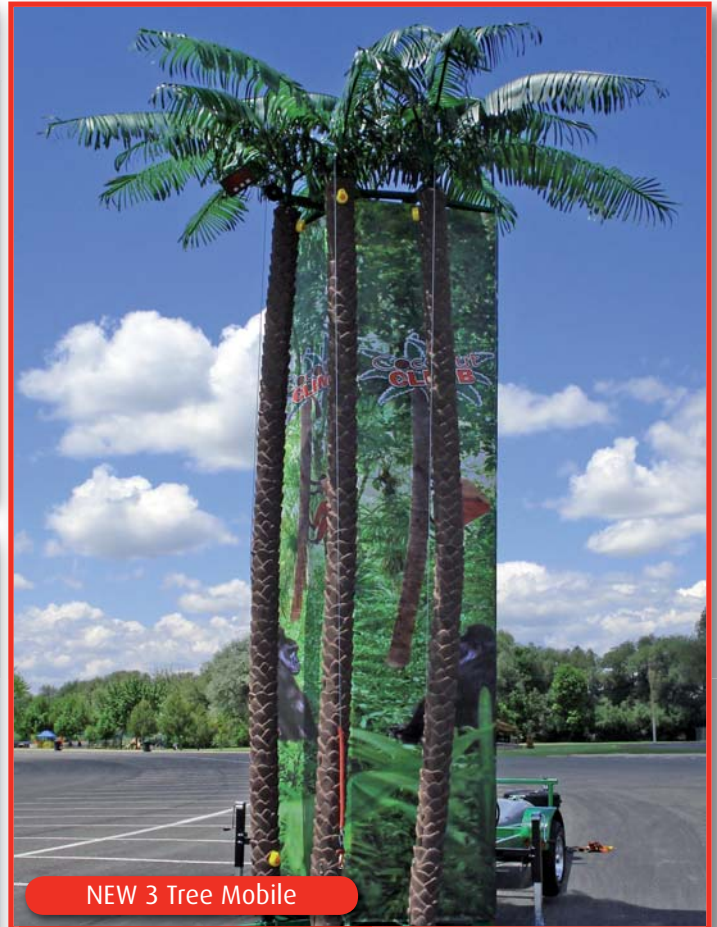

3 Tree Mobile – ready to drive

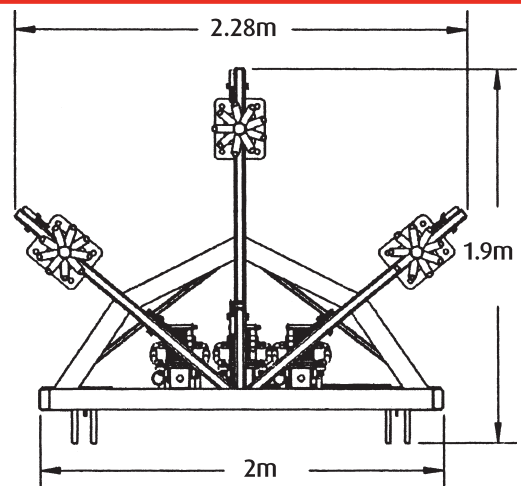

## A fully themed mobile attraction

The Mobile Coconut Tree Climb is the first fully themed mobile attraction of its kind. The striking design and unique climbing style will certainly make an impact at any event it is seen at. Following in the footsteps of the successful range of Mobile Climbing Towers the Mobile Coconut Tree works on the same tried and tested formula for creating a popular mobile attraction. It utilises the same Auto Belay technology and the trailer for the new three player model is even a modified version of that used with the Climbing Towers.

- Mobile model now available with 3 trees as standard!
- Incredibly detailed and high spec finish
- Two full colour themed banners to add to the fun theme
- One Climber Timer system as standard
- 6.7m tall plus leaf fronds to a total height of approx 7.5m
- Rated for operation up to wind speeds of 30mph
- Remote control operated hydraulic lift means set up time is minimal
- UK/EN approved coupler, brakes, tyres, axles (2) and lighting as standard
- Set up time: One operator 30 minutes, two operators 20 minutes or less
