

The Mobile Rock

New rectangular design

A unique mobile climbing attraction

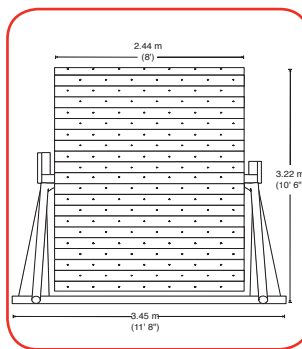

A programmable mobile climbing attraction offering unique, lower level access to indoor and outdoor events. The custom built tilting trailer allows for easy loading and unloading with on board winch assistance. The Mobile Rock can be set up quickly and needs just one person to operate it. It offers a great introduction to climbing and more specialist climbing training for enthusiasts or challenge events. As seen on many TV programmes such as Dog Eat Dog and Blue Peter.

- LCD controller with sixteen pre-programmed mountains and manual control mode
- Purpose built galvanised or painted custom trailer system
- Manual or powered winch to assist the loading and unloading of the machine
- UK/EN approved coupler, brakes, tyres, axles and lighting as standard
- Dolly wheel attachments allow for easy manoeuvring on and off the trailer and on site
- Transport Covers included. One covers the body of the machine and two the side arm controllers
- Custom mobile mat package including padding for all the framework and main safety mats
- We supply a custom power lead with indoor socket and blue 16 amp outdoor adaptor
- Set up time: two operators 20 minutes plus inflatable 20 minutes
- New rectangular inflatable building now includes crowd barriers and removable velcro windows

Army event at Catterick
