

The Classic & FunRock

Classic Rock - Fitness Club

Royal Marines

The Trafford Centre - Manchester

The motorised climbing simulator

The Classic Rock has proved popular in fitness clubs & kids play centres for many years. It offers a programmable climbing experience and full body work out that is totally unique.

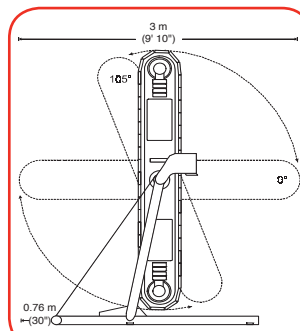

The FunRock adds video screen, sound effects and high scores to this making it a very high tech attraction like no other.

The arcade cabinet display allows climbers to actually track their progress and displays the names of the top climbers for each mountain.

Optional themed scenery is also available that doubles as the safety barriers to help maintain a controlled climbing area.

- Classic Rock and Fun Rock have a two player capacity
- Offers a great climbing experience – even to those who are scared of heights
- Only one dedicated operator required
- Wide range of difficulty levels pre-programmed into control system
- Also offers manual control system allowing you to control the speed and angle
- Infrared sensors top and bottom stops track if climbers go too high or too low
- Pinch free aluminium climbing surface
- 360 handhold and foothold positions (60 handholds)
- Fun Rock has integrated high score ranking and sound effects (Player 1 & 2 sensors)
